

GrandElisir Hair Vigor Line Protein Restructuring Shampoo Hairdesyl Keratin Luminescine High Volume Result Natural Bio

GrandElisir Shampoo Strengthening Restructuring with Keratin & Collagen is suitable for brittle and damaged hair. The combination of natural cleaning substances, hydrolysed proteins and carboxymethylcysteine, associated with NMF (Natural Moisturizing Factor), allows to obtain a repairing and strengthening of the structure. Already after the first applications it is possible to see to the touch an increase of the consistency and elasticity of the hair. Indicated in cases of excessive dryness and sensitized hair.

Hairdensyl Complex is a multifunctional complex composed of marine and botanical ingredients for the care of thin hair, devitalized and weak. It gives body to the hair, strengthens it and increases its volume. This complex is an aqueous mixture of collagen of marine origin, elastin, polysaccharides and hydrating factors derived from honey and marine glycogen. Designed to repair and strengthen the hair structure and give volume to the hair.

Hairdensyl Complex is ideal for:

Treatments to reduce hair loss and stimulate hair regrowth.

- ✓ Preparations to strengthen the hair and increase the thickness of fine hair.
- ✓ Products to protect hair with permanent.
- ✓ Shampoo and lotions for devitalized hair, dry, brittle or weak.
- ✓ Balms.
- ✓ Volumising preparations.

Hairdensyl Complex is indicated to provide volume to the hair as:

- ✓ Increases the protection of the hair against external agents thanks to the filming ability of collagen that makes them softer to the touch and more cohesive cuticles.
- ✓ Thanks to the hygroscopic character, **Hairdensyl Complex** has an important moisturizing capacity and increases the flexibility of the hair.
- ✓ Provides to scalp follicles collagen, elastin, amino acids and peptides to help the synthesis of proteins that tend to decrease with exposure to environmental damage and UV rays and that are the proteins responsible for the structure, protection and hydration of the hair.

Hairdensyl Complex contains:

- ✓ **Protein:** from native marine collagen for external protection of the hair.
- ✓ **Amino acids:** from hydrolyzed marine elastin that increase the vitality of the follicles in the scalp.
- ✓ **Polysaccharides and moisturizing factors:** derived from honey, increase the ability to retain and capture water.
- ✓ **Marine glycogen:** stimulates regrowth.

GrandElisir Shampoo Hairdensyl Strengthening Restructuring contains:

- ✓ **Detergents:** disodium cocoamphodiacetate (amphoteric) and disodium laureth sulfosuccinate (anionic) generate a mix of surfactants particularly delicate and well tolerated by the skin and from the hair. For this reason it is also applied in products for sensitive skin, such as those of children.

- ✓ **Proquat Keratin:** It is a mixture of hydrolyzed keratin, quaternized keratin and cationic polymers. It is completely soluble in water. Used effectively in shampoo, to give body, volume and shine to the hair. Due to its cationic nature it also confers a good conditioning and detangling power.
- ✓ **Carbossimetilcisteina:** Performs a repairing action (N acetyl cisteine).
- ✓ **NMF (Natural Moisturizing Factor):** It has a moisturizing action thanks to the presence of urea glucose, sodium pca, sorbitol, fructose, hydrolyzed wheat protein, sodium glutamate, glycine, lysine, malic acid, tartaric acid, citric acid, glycolic acid, lactic acid, sodium hydroxyde, potassium hydroxyde.
- ✓ **Hydrolyzed wheat germ proteins:** Play a substantive and repairing action hydrolyzed wheat protein.
- ✓ **Luminescine®:** It is a new generation patented functional principle with illuminating action. It is able to absorb UV radiation by transforming it into a new source of light, which is generated directly on the hair increasing its brightness. It is obtained from the petals of the flower of verbasco, typical plant of the Mediterranean area. In vitro tests show that the Luminescine® also acts as a powerful antagonist of photo-oxidative stress by countering free radicals.
- ✓ **Essential oil of orange and mint:** Energizing and refreshing.

How to use: Apply to wet hair, massage for a long time, rinse and repeat the operation. Treatment can be performed two or more times a week.

Ingredienti: water*, disodium cocoamphodiacetate*, disodium laureth sulfosuccinate*, hydrolyzed keratin*, lauryldimonium hydroxypropyl hydrolyzed keratin*, polysorbate 20, glicerine*, peg-5 cocomonium methosulfate*, acetyl cisteine*, sodium glutamate*, glucose*, PEG- 14 dimethicone, sodium cocoyl glutamate*, sorbitol*, fructose*, soluble collagen*, glycerin*, propylene glycol*, honey (Mel) extract*, sodium PCA*, hydrolyzed elastin*, serine*, glycogen*, hydrolyzed wheat protein*, glycine*, lysine*, malic acid*, tartaric acid*, citric acid*, glycolic acid*, lactic acid*, hydroxypropyl guar*, hydroxypropyl trimonium chloride*, verbasum thapsus flower extract*, citrus aurantium dulcis oil*, mentha piperita oil*, polyquaternium 7, parfum, benzyl salicylate, hydroxyisohexyl 3-cyclohexene carboxaldehyde, limonene, linalool, citric acid*, sodium dehydroacetate*, sodium hydroxymethylglycinate*, urea*, sodium hydroxide*, potassium hydroxide*.

* All ingredients accepted by biocertification bodies.
